General Correspondence No. 45

June 9, 1969

Dr. Robert N. McClelland
Southwestern Medical School
University of Texas
Dallas, Texas
75200

Dear Sir:

I realize that you have probably been plagued by many persons about your part in the events of November 22,1963. However, I hope that you will find it possible to respond to my letter.

In the concluding part of your medical report, you mention a wound in the left temple of the President. Could you offer a clearer description of this wound such as to its size and its relationship with the underlying Sphenoid and Temporal bones?

If you wish, I shall treat your reply as confidential information.

Sincerely yours,
